INDEX TO VOLUME 66A

January to December 1962

A

Page

Absolute isotopic abundance of terrestrial silver ... 1
Absorption spectra, infrared, mutarotational equilibria of monosaccharides ... 31
Acidic dissociation constant and related thermodynamic quantities for diethanolammonium ion in water from 0 to 50 °C ... 71
Adipate polyesters at air-liquid interfaces, nomolayers ... 439
Adsorption, batch (and column) ... 503
Adsorption from solution ... 503
Adsorption, kinetics ... 503
Agar, D., E. K. Plyler, E. D. Tidwell, High resolution of some infrared bands of carbon disulfide ... 259
Aldoses with bromine, oxidation of ... 233
An analysis of the solid phase behavior of the normal paraffins ... 241
Animopyrimidines with formaldehyde, reaction of ... 65
Anion-exchange, separation of hafnium from zirconium and their determination ... 517
Arc, copper, ionization in plasma ... 169
Arc, temperature of a copper ... 5
Automatic gas chromatography purification ... 255

B

Bailey, S. M., S. D. Bruck, Conductometric determination of sulfhydryl groups in swollen polycaprolactam fibers having disulfide and alkylene sulfide crosslinks ... 185
Batch adsorption from solution ... 503
Bates, R. G., Revised standard values for pH measurements from 0 to 95 °C ... 179
—, *R. A. Robinson, V. E. Bower,* Acidic dissociation constant and related thermodynamic quantities for diethanolammonium ion in water from 0 to 50 °C ... 71
Bismuth sesquioxide–niobium pentoxide, phase equilibrium relations in the binary system ... 451
Brauer, G. M., L. Simon, Synthesis of 2-propoxy-5-methylbenzoic acid ... 313
Benedict, W. S., L. R. Blaine, E. K. Plyler, Calibration of small grating spectrometers from 166 to 600 cm^{-1} ... 223
Blaine, L. R., E. K. Plyler, W. S. Benedict, Calibration of small grating spectrometers from 166 to 600 cm^{-1} ... 223
Bower, V. E., R. A. Robinson, R. G. Bates, Acidic dissociation constant and related thermodynamic quantities for diethanolammonium ion in water from 0 to 50 °C ... 71
Broadhurst, M. G., An analysis of the solid phase behavior of the normal paraffins ... 241
Bruck, S. D., Fiber structure—property relationships II: macroscopic deformations of alkylene sulfide crosslinked polycaprolactam fibers ... 77
—, Methylene groups in determination of disulfide and methylene sulfide crosslinks in polycaprolactam fibers ... 251
—, Ultraviolet stability of crosslinked polycaprolactam systems ... 489
—, *S. M. Bailey,* Conductometric determination of sulfhydryl groups in swollen polycaprolactam fibers having disulfide and alkylene sulfide crosslinks ... 185

C

Calcium, nuclear optical model analysis of neutron elastic scattering ... 389
Calibration, calorimetric, of an ionization chamber for determination of X-ray total beam energy ... 371
Calibration of encapsulated radium sources ... 103
Calibration of small grating spectrometers from 166 to 600 cm^{-1} ... 223
Calorimetric calibration of an ionization chamber for determination of X-ray total beam energy ... 371
Carbon dioxide, reaction of hardened portland cement paste ... 473
Carbon dioxide, thermal conductivity near the critical point ... 341
Carbonyl sulfide, vibration-rotation bands ... 163
Caswell, R. S., Nuclear optical model analysis of neutron elastic scattering for calcium ... 389
Cerium-141, oriented, gamma-ray distribution ... 317
Chromatographic analysis of petroleum fractions used in oil-extended rubber ... 189
Color measurement, spectrophotometer-integrator systems, glass filters for checking performance ... 203
Conductivity, thermal, of carbon dioxide near the critical point ... 341
Conductivity, thermal, of gases: carbon dioxide near the critical point ... 341
Conductivity, thermal, of gases: coaxial cylinder cell ... 333
Conductometric determination of sulfhydryl groups in swollen polycaprolactam fibers having disulfide and alkylene sulfide crosslinks ... 185
Convection, criteria for turbulence ... 333
Copper arc, ionization in plasma ... 169
Copper, first spectrum, spectral-line intensities and *gf*-values ... 497
Corliss, C.H., Ionization in the plasma of a copper arc ... 169
—, Spectral-line intensities and *gf*-values in the first spectrum of copper ... 497
—, Temperature of a copper arc ... 5
Correction factors for the calibration of encapsulated radium sources ... 103
Crosslinked polycaprolactam systems, ultraviolet stability ... 489
Cross-sectional correction for computing Young's modulus from longitudinal resonance vibrations of square and cylindrical rods ... 193
Curtis, A. J., A. H. Scott, D. J. Scheiber, J. I. Lauritzen, Jr., J. D. Hoffman, Dielectric properties of semicrystalline polychlorotrifluorethylene ... 269
Cuthill, J. R., L. L. Wyman, G. A. Moore, J. J. Park, H. Yakowitz, Intermediate phases in superconducting niobium-tin alloys ... 351

D

Page

Decolorization by adsorption ... 503
Derivation of the relaxation spectrum representation of the mechanical response function ... 349
Description and analysis of the second spectrum of tantalum, Ta II ... 111
Diamond cell for X-ray diffraction studies at high pressures ... 325
Dibeler, V. H., W. R. Shields, E. L. Garner, Absolute isotopic abundance of terrestrial silver ... 1
Dielectric properties of semicrystalline polychlorotrifluoroethylene ... 269
Diethanolammonium ion in water from 0 to 50 ° C, acidic dissociation constant and related thermodynamic quantities ... 71
Domen, S. R., J. S. Pruitt, Calorimetric calibration of an ionization chamber for determination of X-ray total beam energy ... 371
Duncan, B. C., Ion transport across membranes: I. Definitions of membrane electromotive forces and of flows of electrolytic solutes ... 83

E

Elastic constants of rutile (TiO_2) ... 465
Electromotive forces and flows of electrolytic solutes, definitions ... 83
Enagonio, D., G. A. Ross, C. A. Hewitt, A. R. Glasgow, Preparation of high purity trimethylborane ... 59
Encapsulated radium sources, calibration, correction factors ... 103
Energy levels of Ta II ... 111
Equilibria, mutarotational, of monosaccharides, infrared absorption spectra ... 31

F

f-values ... 5
Fiber structure—property relationship II: Macroscopic deformations of alkylene sulfide crosslinked polycaprolactam fibers ... 77
Filters, glass, for checking performance of spectrophotometer-integrator systems of color measurement ... 203
Foreign gas broadening of the lines of hydrogen chloride and carbon monoxide ... 435
Formaldehyde, reaction of several animopyrimidines ... 65
Fractionated high and low molecular weight polystyrenes, thermal degradation ... 307
Franck-Condon factors to high vibrational quantum numbers II: SiO, MgO, SrO, AlO, VO, NO ... 227

G

g-values ... 5
gf-values and spectral line intensities in the first spectrum of copper ... 497
Gamma-ray distribution from oriented cerium-141 ... 317
Garner, E. L., W. R. Shields, V. H. Dibeler, Absolute isotopic abundance of terrestrial silver ... 1
Gases, thermal conductivity; coaxial cylinder cell ... 333
Gilliland, A. A., Heat of formation of nitronium perchlorate ... 447
Glasgow, A. R., G. S. Ross, D. Enagonio, C. A. Hewitt, Preparation of high purity trimethylborane ... 59
—, *D. J. Termini,* Chromatographic analysis of petroleum fractions used in oil-extended rubber ... 189
Glass filters for checking performance of spectrophotometer-integrator systems of color measurement ... 203
Guildner, L. A., Thermal conductivity of gases. I. The coaxial cylinder cell ... 333
—, Thermal conductivity of gases. II. Thermal conductivity of carbon dioxide near the critical point ... 341

H

Hafnium, separation from zirconium and their determination: separation by anion-exchange ... 517
Hague, J. L., L. A. Machlan, Separation of hafnium from zirconium and their determination: separation by anion-exchange ... 517
Hampson, R. F., R. F. Walker, The vapor pressure of palladium ... 177
Heat of formation of nitronium perchlorate ... 447
Hewitt, C. A., G. S. Ross, D. Enagonio, A. R. Glasgow, Preparation of high purity trimethylborane ... 59
High purity trimethylborane, preparation of ... 59
High resolution investigation of some infrared bands of carbon disulfide ... 259
High vibrational quantum numbers II, Franck-Condon factors ... 227
Hirshfeld, A. T., J. F. Schooley, D. D. Hoppes, Gamma-ray distribution from oriented cerium-141 ... 317
Hoffman, J. D., A. H. Scott, D. J. Scheiber, A. J. Curtis, J. I. Lauritzen, Jr., Dielectric properties of semicrystalline polychlorotrifluorethylene ... 269
—, *J. J. Weeks,* Melting process and the equilibrium melting temperature of polychlorotrifluoroethylene ... 13
Hoppes, D. D., J. F. Schooley, A. T. Hirshfeld, Gamma-ray distribution from oriented cerium-141 ... 317
Howard, F. L., M. Tenenbaum, Purification by automatic gas chromatography ... 255
Hunt, C. M., L. A. Tomes, Reaction of hardened portland cement paste with carbon dioxide ... 473

Page

Hydrogen chloride and carbon monoxide, foreign gas broadening of the lines. 435
Hydrogen content, titanium standards 483

I

Infrared absorption of carbonyl sulfide 163
Infrared absorption spectra in the study of mutarotational equilibria of monosaccharides 31
Infrared bands of carbon disulfide, high resolution investigation 259
Inorganic carbonates and nitrates from low temperature infrared spectroscopy, lattice frequencies and rotational barriers 407
Interfaces, air-liquid, monolayers of adipate polyesters 439
Ion transport across membranes: I. Definitions of membrane electromotive forces and of flows of electrolytic solutes 97
Ionization chamber for determination of X-ray total beam energy, calorimetric calibration 371
Ionization in the plasma of a copper arc 169
Intermediate phases in superconducting niobium-tin alloys 351
Isbell, H. S., Oxidation of aldoses with bromine 233
—, *L. T. Sniegoski*, Tritium-labeled compounds VIII. Proof of the position of the tritium in D-glucose-6-*t* and D-glucitol-5-*t* 29
—, *R. S. Tipson*, Infrared absorption spectra in the study of mutarotational equilibria of monosaccharides 31

J

Judd, D. B., H. J. Keegan, J. C. Schleter, Glass filters for checking performance of spectrophotometer-integrator systems of color measurement 203

K

Keegan, H. J., J. C. Schleter, D. B. Judd, Glass filters for checking performance of spectrophotometer-integrator systems of color measurement 203
Kinetics of adsorption 503
Kiess, C. C., Description and analysis of the second spectrum of tantalum, Ta II 111

L

Lam, D. J., Jr., J. B. Wachtman, Jr., W. E. Tefft, Elastic constants of rutile (TiO_2) 465
Langmuir adsorption kinetics 503
Lattice frequencies and rotational barriers for inorganic carbonates and nitrates from low temperature infrared spectroscopy 407
Lauritzen, J. I. Jr., A. H. Scott, D. J. Scheiber, A. J. Curtis, J. D. Hoffman, Dielectric properties of semicrystalline polychlorotrifluoroethylene 269
Lee, R. M., T. P. Loftus, Correction factors for the calibration of encapsulated radium souces 103
Lee, W. M., R. R. Stromberg, J. L. Shereshefsky, Monolayers of adipate polyesters at air-liquid interfaces 439
Light source for producing self-reversed spectral lines 321
Lines of hydrogen chloride and carbon monoxide, foreign broadening 435
Lippincott, E. R., R. A. Schroeder, C. E. Weir, Lattice frequencies and rotational barriers for inorganic carbonates and nitrates from low temperature infrared spectroscopy 407
Loebenstein, W. V., Batch adsorption from solution 503
Loftus, T. P., R. M. Lee, Correction factors for the calibration of encapsulated radium sources 103
Longitudinal resonance vibrations of square and cylindrical rods, cross-sectional correction for computing Young's modulus 193
Low temperature infrared spectroscopy, lattice frequencies and rotational barriers for inorganic carbonates and nitrates 407

M

Macroscopic deformations of alkylene sulfide crosslinked polycaprolactam fibers, fiber structure, property relationships 77
Machlan, L. A., J. L. Hague, Separation of hafnium from zirconium and their determination: separation by anion-exchange 517
Madorsky, S. L., S. Straus, Pyrolysis of some polyvinyl polymers at temperatures up to 1,200 °C 401
——, ——, D. McIntyre, J. H. O'Mara, Thermal degradation of fractionated high and low molecular weight polystyrenes 307
Maki, A. G., E. K. Plyler, E. D. Tidwell, Vibration-rotation bands of carbonyl sulfide 163
Marvin, R. S., Derviation of the relaxation spectrum representation of the mechanical response function 349
McIntyre, D., S. L. Madorsky, J. H. O'Mara, S. Straus, Thermal degradation of fractionated high and low molecular weight polystyrenes 307
McLeod, G. L., Reaction of several aminopyrimidines with formaldehyde 65
Mechanical response function, derivation of relaxation spectrum representation 349
Melting process and the equilibrium melting temperature of polychlorotrifluoroethylene 13
Membrane electromotive forces and flows of electrolytic solutes, definitions of 13
Methylene groups in determination of disulfide and methylene sulfide crosslinks in polycaprolactam fibers 251
Monolayers of adipate polyesters at air-liquid interfaces 439
Monosaccharides, mutarotational equilibria, infrared absorption spectra 31
Moore, G. A., L. L. Wyman, J. R. Cuthill, J. J. Park, H. Yakowitz, Intermediate phases in superconducting niobium-tin alloys 351
Mutarotational equilibria of monsaccharides, infrared asborption spectra 31

N

Neutron elastic scattering for calcium, nuclear optical model analysis 389
Newman, E. S., Zinc oxide as a standard substance in the solution calorimetry of portland cement 381
Nicholls, R. W., Franck-Condon factors to high vibrational quantum numbers II: SiO, MgO, SrO, AlO, VO 227

Page

Niobium pentoxide–bismuth sesquioxide, phase equilibrium relations in the binary system 451
Niobium–tin alloys, superconducting, intermediate phases 351
Nitronium perchlorate, heat of formation 447
Normal paraffins, an analysis of the solid phase behavior 241
Nuclear optical model analysis of neutron elastic scattering for calcium 389

O

Oil-extended rubber, chromatographic analysis of petroleum fractions used in 189
O'Mara, J. H., S. L. Madorsky, D. McIntyre, S. Straus, Thermal degradation of fractionated high and low molecular weight polystyrenes 307
Oxidation of aldoses with bromine 233

P

*p*H standards from 0 to 95 °C, revised values 179
Palladium, vapor pressure of 177
Palumbo, F. J., J. T. Sterling, L. L. Wyman, Titanium standards for hydrogen content 483
Park, J. J., L. L. Wyman, J. R. Cuthill, G. A. Moore, H. Yakowitz, Intermediate phases in superconducting niobium–tin alloys 351
Phase equilibrium relations in the binary system bismuth sesquioxide-niobium pentoxide 451
Piermarini, G. J., C. E. Weir, A diamond cell for X-ray diffraction studies at high pressures 325
Plasma, copper arc, ionization 169
Plyler, E. K., D. Agar, E. D. Tidwell, High resolution of some infrared bands of carbon disulfide 259
—, *L. R. Blaine, W. S. Benedict*, Calibration of small grating spectrometers from 166 to 600 cm^{-1} 223
—, *A. G. Maki, E. D. Tidwell*, Vibration-rotation bands of carbonyl sulfide 163
—, *R. J. Thibault*, Foreign gas broadening of the lines of hydrogen chloride and carbon monoxide 435
Polycaprolactam fibers, methylene groups in determination of disulfide and methylene sulfide crosslinks 251
Polycaprolactam systems, crosslinked, ultraviolet stability 489
Polychlorotrifluoroethylene, melting process and equilibrium melting temperature 13
Polychlorotrifluoroethylene, semicrystalline, dielectric properties 269
Polystyrenes, fractionated high and low molecular weight, thermal degradation 307
Polyvinyl polymers at temperatures up to 1,200 °C 401
Portland cement, solution colorimetry of, zinc oxide as a standard substance 381
Portland cement paste, hardened, reaction with carbon dioxide 473
Preparation of high purity trimethylborane 59
Proof of the position of the tritium in D-glucose-6-*t* and D-glucitol-5-*t*, tritium-labeled compounds VIII 29
Property relationship: macroscoptic deformations of alkylene sulfide crosslinked polycaprolactam fibers 77
Pruitt, J. S., S. R. Domen, Calorimetric calibration of an ionization chamber for determination of X-ray total beam energy 371
Purification by automatic gas chromatography 255
Pyrolysis of some polymers at temperatures up to 1,200 °C 401

R

Radium sources, encapsulated, calibration, correction factors 103
Reaction of hardened portland cement paste with carbon dioxide 473
Reaction of several aminopyrimidines with formaldehyde 65
Relaxation spectrum representation of mechanical response function derivation 349
Revised standard values for *p*H measurements from 0 to 95 °C 179
Robinson, R. A., V. E. Bower, R. G. Bates, Acidic dissociation constant and related thermodynamic quantities for diethanolammonium ion in water from 0 to 50 °C 71
Ross, G. S., D. Enagonio, C. A. Hewitt, A. R. Glasgow, Preparation of high purity trimethylborane 59
Roth, R. S., J. L. Waring, Phase equilibrium relations in the binary system bismuth sesquioxide–niobium pentoxide 451
Rutile (TiO_2), elastic constants 465

S

Scheiber, D. J., A. H. Scott, A. J. Curtis, J. I. Lauritzen, Jr., J. D. Hoffman, Dielectric properties of semicrystalline polychlorotrifluoroethylene 269
Schleter, J. C., H. J. Keegan, D. P. Judd, Glass filters for checking performance of spectrophotometer-integrator systems of color measurement 203

CONTENTS OF VOLUME 66A

Volume 66A—No. 1—January–February 1962

	Page
Absolute isotopic abundance of terrestrial silver. William R. Shields, Ernest L. Garner, and Vernon H. Dibeler	1
Temperature of a copper arc. Charles H. Corliss	5
Melting process and the equilibrium melting temperature of polychlorotrifluoroethylene. John D. Hoffman and James J. Weeks	13
Tritium-labeled compounds VIII. Confirmation of the position of the tritium in D-glucose-*6-t* and D-glucitol-*5-t*. Lorna T. Sniegoski and Horace S. Isbell	29
Infrared absorption spectra in the study of mutarotational equilibria of monosaccharides. R. Stuart Tipson and Horace S. Isbell	31
Preparation of high purity trimethylborane. Gaylon S. Ross, Delmo Enagonio, Clifford A. Hewitt, and Augustus R. Glasgow	59
Reaction of several aminopyrimidines with formaldehyde. Gerald L. McLeod	65
Acidic dissociation constant and related thermodynamic quantities for diethanolammonium ion in water from 0 to 50 °C. Vincent E. Bower, Robert A. Robinson, and Roger G. Bates	71
Fiber structure—property relationships II: Macroscopic deformations of alkylene sulfide crosslinked polycaprolactam fibers. Stephen D. Bruck	77
Ion transport across membranes: I. Definitions of membrane electromotive forces and of flows of electrolytic solutes. Blanton C. Duncan	83

Volume 66A—No. 2—March–April 1962

	Page
Correction factors for the calibration of encapsulated radium sources. R. M. Lee and T. P. Loftus	103
Description and analysis of the second spectrum of tantalum, Ta II. C. C. Kiess	111
Vibration-rotation bands of carbonyl sulfide. Arthur G. Maki, Earle K. Plyler, and Eugene D. Tidwell	163
Ionization in the plasma of a copper arc. Charles H. Corliss	169
The vapor pressure of palladium. R. F. Hampson and R. F. Walker	177
Revised standard values for *p*H measurements from 0 to 95 °C. Roger G. Bates	179
Conductometric determination of sulfhydryl groups in swollen polycaprolactam fibers having disulfide and alkylene sulfide crosslinks. Stephen D. Bruck and Sylvia M. Bailey	185
Chromatographic analysis of petroleum fractions used in oil-extended rubber. Dominic J. Termini and Augustus R. Glasgow	189
Cross-sectional correction for computing Young's modulus from longitudinal resonance vibrations of square and cylindrical rods. Wayne E. Tefft and Sam Spinner	193

Volume 66A—No. 3—May–June 1962

Page

Glass filters for checking performance of spectrophotometer-integrator systems of color measurement. Harry J. Keegan, John C. Schleter, and Deane B. Judd 203

Calibration of small grating spectrometers from 166 to 600 cm^{-1}. L. R. Blaine, Earle K. Plyler, and W. S. Benedict 223

Franck-Condon factors to high vibrational quantum numbers II: SiO, MgO, SrO, AlO, VO, NO. R. W. Nicholls 227

Oxidation of aldoses with bromine. Horace S. Isbell 233

An analysis of the solid phase behavior of the normal paraffins. Martin G. Broadhurst 241

Determination of methylene groups in disulfide and methylene sulfide cross-links in polycaprolactam fibers. Stephen D. Bruck 251

Purification by automatic gas chromatography. Milton Tenenbaum and Frank L. Howard 255

High resolution investigation of some infrared bands of carbon disulfide. Delia Agar, Earle K. Plyler, and E. D. Tidwell 259

Volume 66A—No. 4—July–August 1962

Page

Dielectric properties of semicrystalline polychlorotrifluoroethylene. Arnold H. Scott, Donald J. Scheiber, Alexander J. Curtis, John I. Lauritzen, Jr., and John D. Hoffman 269

Thermal degradation of fractionated high and low molecular weight polystyrenes. S. L. Madorsky, D. McIntyre, J. H. O'Mara, and S. Straus 307

Synthesis of 2-propoxy-5-methylbenzoic acid. Gerhard M. Brauer and Lester Simon 313

The gamma-ray distribution from oriented cerium-141. J. F. Schooley, D. D. Hoppes, and A. T. Hirshfeld 317

Light source for producing self-reversed spectral lines. Jack Sugar 321

A diamond cell for X-ray diffraction studies at high pressures. G. J. Piermarini and C. E. Weir 325

Thermal conductivity of gases. I. The coaxial cylinder cell. Leslie A. Guildner 333

Thermal conductivity of gases. II. Thermal conductivity of carbon dioxide near the critical point. Leslie A. Guildner 341

Derivation of the relaxation spectrum representation of the mechanical response function. Robert S. Marvin 349

Intermediate phases in superconducting niobium-tin alloys. L. L. Wyman, J. R. Cuthill, G. A. Moore, J. J. Park, and H. Yakowitz 351

Volume 66A—No. 5—September–October 1962

Page

Calorimetric calibration of an ionization chamber for determination of X-ray total beam energy. John S. Pruitt and Steve R. Domen 371

Zinc oxide as a standard substance in the solution calorimetry of portland cement. Edwin S. Newman 381

Nuclear optical model analysis of neutron elastic scattering for calcium. Randall S. Caswell 389

Pyrolysis of some polyvinyl polymers at temperatures up to 1,200° C. Sidney Straus and Samuel L. Madorsky 401

Lattice frequencies and rotational barriers for inorganic carbonates and nitrates from low temperature infrared spectroscopy. R. A. Schroeder, C. E. Weir, and E. R. Lippincott 407

Foreign gas broadening of the lines of hydrogen chloride and carbon monoxide. Earle K. Plyler and Robert J. Thibault 435

Monolayers of adipate polyesters at air-liquid interfaces. Wendell M. Lee, Robert R. Stromberg, and J. Leon Shereshefsky 439

Volume 66A—No. 6—November–December 1962

Page

Heat of formation of nitronium perchlorate. Alexis A. Gilliland 447

Phase equilibrium relations in the binary system bismuth sesquioxide-niobium pentoxide. R. S. Roth and J. L. Waring 451

Elastic constants of rutile (TiO_2). J. B. Wachtman, Jr., W. E. Tefft, and D. G. Lam, Jr. 465

Reaction of hardened portland cement paste with carbon dioxide. Charles M. Hunt and Lewis A. Tomes 473

Titanium standards for hydrogen content. J. T. Sterling, F. J. Palumbo, and L. L. Wyman 483

Ultraviolet stability of crosslinked polycaprolactam systems. Stephen D. Bruck 489

Spectral-line intensities and *gf*-values in the first spectrum of copper. Charles H. Corliss 497

Batch adsorption from solution. William V. Loebenstein 503

Separation of hafnium from zirconium and their determination: separation by anion-exchange. Lawrence A. Machlan and John L. Hague 517

U.S. GOVERNMENT PRINTING OFFICE: 1963
